

# CUTHBERT LAB

## NAVIGATING TOWARD HEALTH AND WELLNESS

Weiqi Li is currently pursuing his Nursing degree (Year 2) at the University of Calgary and holds a Bachelor's degree in Human Nutritional Sciences from the University of Manitoba. With a specific interest in oncology, Weiqi is keen to align his nursing education with the cutting-edge research conducted at the Cuthbert Lab. He brings valuable skills in conducting scoping reviews, a skill he will utilize as a volunteer with Cuthbert lab, enriching his understanding of cancer survivorship.

Outside his academic and research activities, Weiqi enjoys exploring new cultures through their cuisines, and he also enjoys cooking, swimming and watching movies.
